

Updated Preliminary Report

Rafael Campos-Gottardo & Alan Nemirovski

2026-03-16

New Measure of groups short term

```
EUI_data_short <- EUI_data %>%
  filter(Year > 2022)

EUI_data_short <- EUI_data_short %>%
  bind_rows(EUI_april_2022 %>% mutate(Year = 2022))

EUI_data_short <- EUI_data_short %>%
  mutate(Ukraine_groups = case_when(Q73 == "European countries should invest more in defence and security to defend against Russian aggression" &
    New_Q78_4 %in% c(3, 4) &
    New_Q78_5 %in% c(3, 4) ~ "Security-focused",
    New_Q78_4 %in% c(3, 4) &
    New_Q78_5 %in% c(1, 2) ~ "Conditional Ukraine Supporters",
    Q73 == "European countries should invest more in trade and diplomacy with Russia to improve relations" &
    New_Q78_4 %in% c(1, 2) ~ "Russia collaboration",
    TRUE ~ "Domestic/ Distracted"))
```

The Coding of the new measure

Security Focused: Q73 - Defence and Security; New_Q78_4 - Support sending military equipment; New_Q78_5 - Willing to accept higher energy costs

Conditional Supporters: New_Q78_4 - Support sending military equipment; New_Q78_5 - Not willing to accept higher energy costs

Russian collaboration: Q73 - Trade and diplomacy; New_Q78_4 - Do not support sending military equipment

Domestic/Distracted: All those not previously categorized (The coding scheme says and don't know which is captured by all the remaining categories)

There is the code used to create the groups with spacing to see all of it

```
EUI_data_short <- EUI_data_short %>%
  mutate(Ukraine_groups = case_when(Q73 == "European countries should invest
  more in defence and security to defend against Russian aggression" &
    New_Q78_4 %in% c(3, 4) &
    New_Q78_5 %in% c(3, 4) ~ "Security-focused",
    New_Q78_4 %in% c(3, 4) &
    New_Q78_5 %in% c(1, 2) ~ "Conditional
    Ukraine Supporters",
    Q73 == "European countries should invest
    more in trade and diplomacy with Russia to
    improve relations" &
    New_Q78_4 %in% c(1, 2) ~
```

```

"Russia collaboration",
TRUE ~ "Domestic/ Distracted"))

table(EUI_data_short$Ukraine_groups)

```

```

##
## Conditional Ukraine Supporters           Domestic/ Distracted
##                               19036                               38977
##           Russia collaboration           Security-focused
##                               16888                               21719

```
